PROJECT NAME	Industry-Specific Intelligent Fire Management System

Standard Activity List Template:

Activity List			
Project Title: Industry-Specific Intelligent Fire Management System			**Date:** 16.11.2022
Activity No.	**Activity Name**	**Description of Work**	**Responsibility**
1	Literature Survey on the selected project & Information Gathering , Prepare Empathy map, Ideation, Proposed Solution, Problem Solution fit.	This activity consists of creating the literature survey, Information gathering, Empathy map, Proposed solution and Problem Solution for the project and for the customer understanding.	Karthick, Kumaran, Karthiga Sree, Sharan, Premasri is responsible for this activity.
2	Solution Architecture, Customer Journey, Functional requirement, Data Flow Diagrams, Technology Architecture.	This activity consists of preparing Solution Architecture, Customer Journey, Functional Requirement, Data Flow Diagrams, Technology Architecture for the project and for the Customer.	Karthick, Kumaran, Karthiga Sree is responsible for this activity.
3	IBM Cloud Services, Software, Create IBM Watson IOT platform and device, Create Node-Red Service, Develop a Python Script.	This activity consists of creating IBM Cloud Services, Software, Create IBM Watson IOT platform and device, Create Node-Red Service, Develop a Python Script for the Project and for the Customer.	Karthick, Kumaran, Karthiga Sree, Sharan, Premasri is responsible for this activity.
4	Publish Data to the IBM Cloud, Develop the web Application using Node-Red, Use Dashboard Nodes for creating UI (Web App).	This activity consists of preparing Publish Data to the IBM Cloud, Develop the web Application using Node-Red, Use Dashboard Nodes for creating UI (Web App) for the project and for Customer.	Karthick, Kumaran, Karthiga Sree, Premasri, Sharan is responsible for this activity.
5	Prepare Milestone & Activity list, Sprint Delivery Plan, Project Development-Delivery of Sprint-1, Sprint-2, Sprint-3,Sprint-4.	This activity includes connecting all telephone services, network services and any other electrical items for employees in their new workspace.	Karthick is responsible for this activity.
